

The PROGLUER

Simple straight line gluer

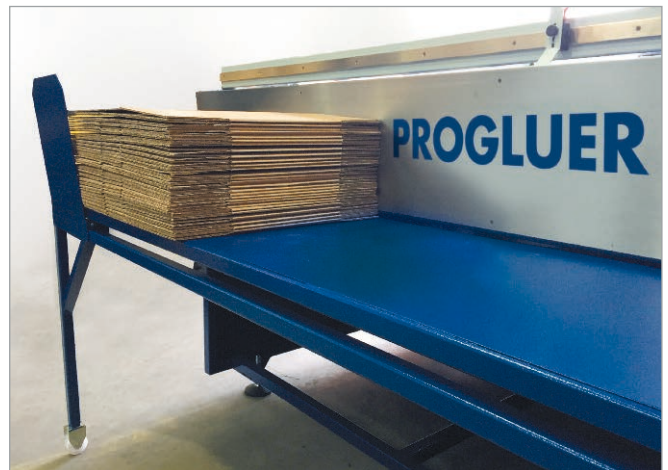

- Simple to use, fast set-up, high output, semi-automatic box gluer
- Glue your boxes quickly, easily and efficiently
- Highly productive running at up to 30 metres per minute – variable speed setting
- Uses standard cold PVA adhesive – with stainless steel easy-clean reservoir
- Simple to set up and to operate with minimum operator training
- Programmable batch counter with alarm
- All electric, single phase supply

Simple to use, fast set-up, high output, semi-automatic box gluer.

Designed and manufactured to operate with Autobox world leading box-making machines, the **PROGLUER** has been developed with high output and production versatility in mind. Requiring only single phase connection, the **PROGLUER** is simple to use and quick to set up.

The **PROGLUER** provides the ultimate in efficiency for all short run box making requirements.

- Box squaring device – reduces fish-tailing
- Adjustable glue meter
- 8 x 100mm drive belts
- Programmable batch counter
- Foot pedal operation
- Variable drive speed

MAX. BLANK SIZE	1200mm x 2400mm
MIN. BLANK SIZE	100mm x 330mm
MAX. BOARD THICKNESS	10mm
WORKING TABLE HEIGHT	750mm
WORKING TABLE DEPTH (FULLY EXTENDED)	1200mm
ADHESIVE RESERVOIR CAPACITY	1.5 litres
MAX. THROUGH-PUT SPEED (ADJUSTABLE)	approx. 30m/min
OVERALL DIMENSIONS	2600mm x 1500mm x 1300mm
GROSS SHIPPING WEIGHT	750kg
POWER REQUIREMENTS	220-240V 50-60Hz single phase
