

ROTARY SLITTER

Fast and accurate rotary slitter scorer

- Multi-out rotary slitter
- Simple and quick set-up
- Variable speed control
- Solid, durable construction

The BCS **ROTARY SLITTER SCORER** has been developed to offer the user a simple yet fast method of cutting and scoring corrugated board ready for box making. With multiple slitting and scoring tools the machine can be set up to produce as many as four correct size blanks from a single pass at speeds of up to 120 metres per minute. The slitting and scoring tools simply slide along the chrome plated shafts and are locked in place at the correct position by the operator.

The top cover is hinged to allow quick and easy access but is held shut by an electrically operated locking device whilst the shafts are turning. The height of the shafts is adjustable to allow control of the grip and crease pressure, whilst an inverter is used to control the throughput speed.

| | |
|-----------------------------------|---------------------------------------|
| MAX. SHEET WIDTH | 2400 mm |
| MIN. SLITTING WIDTH | 70 mm |
| MIN. SCORING WIDTH | 25 mm |
| THROUGHPUT SPEED | 120 m/min |
| SLITTING TOOL DIAMETER | 200 mm (4 sets) |
| SCORE TOOL DIAMETER | 188 mm (4 sets) |
| POWER | 2 HP/1.5kW |
| WEIGHT | 1900 kg |
| DIMENSIONS (MM) | 3000 mm x 900 mm x 1100 mm |
| SHAFTS | 120mm Hardened steel, Chrome plated |
| SPEED | Variable, up to 120 metres per minute |
| MAXIMUM THICKNESS | 12mm |
| MINIMUM THICKNESS | 1mm |
| POWER REQUIREMENTS | 3 phase + earth, 415V at 8A per phase |
| SCORING AND SLITTING TOOLS | Quick lock option available |
