SELECT

**Award winning
double click
box making**

KOLBUS AutoBox
The future of boxmaking

How the AutoBox Boxer's double click box making will change the way you make boxes for ever

- Uses sheet corrugated board
- Produce boxes on demand, with no need for prior box making experience
- Single wall through to heavy duty double wall
- Makes rugged 'industry standard' boxes
- Produces 100 box styles from wraps to pallet boxes in almost any size
- Frees up valuable space by reducing the amount of stock boxes you need to hold
- Two Colour digital print available
- Only need to stock a handful of basic sizes and grades of corrugated sheet
- Ultra compact state-of-the-art technology
- Reliable and easy to use
- Built and supported by KOLBUS AutoBox - Over 40 years at the forefront of box making technology

Any box, any style, any time

The AutoBox Boxer always talks your language...

Manual Input

Initiate jobs at the machine using our intuitive touch screen

Remote Input

Connect and control via the office PC or your mobile devices

Scan-2-Box™

Integrated scanning system and box sizing software

**So simple, so versatile.
Box making has never been
so easy**

Boost the capabilities of your AutoBox Boxer with extra modules...

Digital Print

Take your specialist box making capabilities to a whole new level with this high resolution 180 dpi one or two colour ink jet print module

- One or two print heads
- Print in several positions both along and across box
- Simple graphic interface, no print plates required

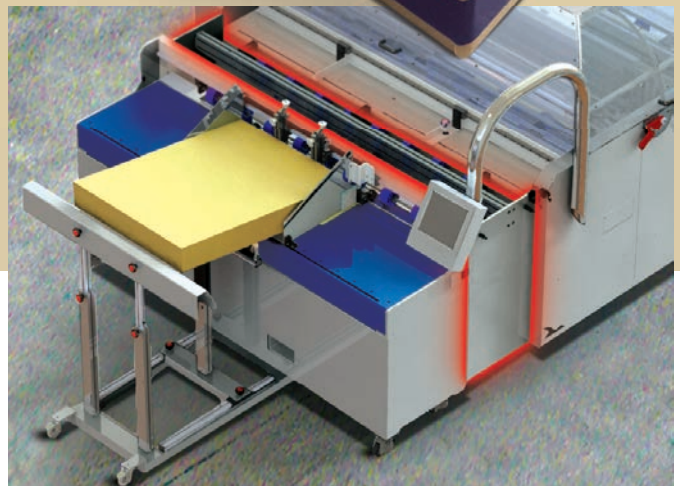

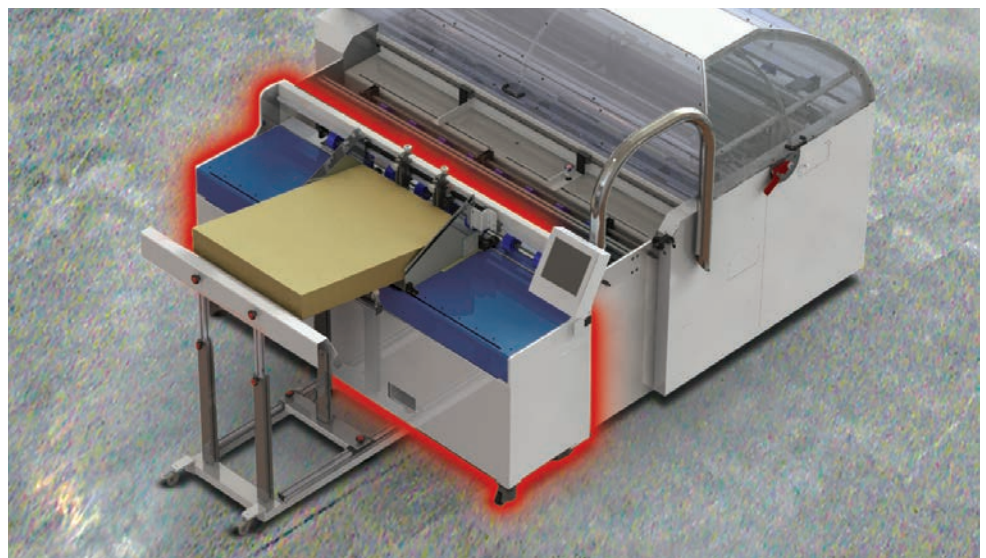

Table Feed

A high grip friction feeder across width of machine allows for auto-feeding of all sizes of stock board

...and ancillary products.

AutoBox PG

Speed up production with our simple to use, fast set-up, high output, semi-automatic box gluer

- Runs at variable speeds up to 30 metres per minute
- Standard cold PVA adhesive in easy-clean reservoir
- Programmable batch counter with alarm
- Powered entirely with single phase supply

AutoBox PM

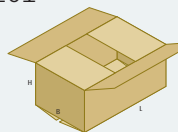

Apply a measured amount of hot-melt adhesive across the whole length of the glue flap to provide optimum contact surface with excellent adhesion, every time.

- 3 ltr heated tank ensures a constant supply of glue
- Easier and up to 50% cheaper than a hot glue gun
